

## Welcome to John M. Williams, DDS

Dr. John M. Williams, DDS have been serving the Twin Cities Metro Area for over 30 years.

This web site is designed to help you know more about our office and our approach to dentistry.

We take pride in our ability to render the finest dental service available. One of our primary concerns will be to make you feel comfortable. Our office and procedures are designed with you in mind and our staff members are devoted to making your visits enjoyable.

We are very sensitive to the care of children. We believe that a child should visit a dentist as early as 2 yrs of age. We know that children sometimes feel uncomfortable in a medical environment so our staff will make them feel as comfortable as possible.
